

Sky Herbs Water Concentrate

Skyherbs water concentrate produced by H Plant is a water extract of Pakhanbed, Dhatelo, Gandhaino and Ghodamarcha, precious medicinal and aromatic plants found especially in high altitude of far west Karnali region in Humla and Mugu districts, Nepal.

Up to the present these valuable herbal resources have not been explored properly in terms of income generation potential for the villagers, as they have been consumed only for limited purposes. Ghodamarcha and Gandhaino have been traditionally used for tea, Dhatelo for cooking oil and Pakhanbed for a folk remedy for cough and cold.

With several years of research on these herbs' value and usages, H Plant got the opportunity to collaborate with LG Household and Health Care, the Korean leading conglomerate in cosmetic products. In 2014, LG launched its exclusive 'Beyond Himalaya' skin care products line using H Plant's semi processed raw herb materials, meeting all the requirements in quality parameters of LG lab.

DHATELO

Prinsepia utilis
Dried Seeds

GANDHAINO

Angelica glauca
Dried and sliced roots

GHODAMARCHA

Thymus linearis
Dried leaves

PAKHANBED

About us

H Plant Pvt. Ltd. is a social enterprise established by Good Neighbors International (GNI), a South-Korea based international humanitarian and development NGO in General Consultative Status with the UN ECOSOC providing various programmes in 37 countries around the world, serving over 16.8 million individuals in need.

GNI has been working in Nepal since 2002 to help improve lives of our neighbors via child education, community development, income generation, health, sanitation, disaster relief, advocacy and network building, etc.

H Plant has a vision in natural resources to unleash the economic potentiality of medicinal and aromatic plants and herbal products and to promote fair trade practices in the deep Himalayas.

The company sources wild herbs while maintaining the fragile ecological balance and offering fair price for sustainable community development. H Plant has exclusive access to first point original supply sources such as farmers, forest contractors and cooperatives.

Endeavour to provide the gift of Himalaya's natural resources to human, H Plant chooses to work with some of the most remote areas of Nepal: the Humla and Mugu districts located between 3,000m-7,000m above sea level. Both districts have an abundance of natural resources with tremendous potentialities.

H Plant has wholly supported to establish the processing unit for value addition of wild herbs and to create rural employment opportunities. In association with national and international organizations for ensuring better utilization of resources, the company has been running various farming projects to assure sustainable supply of resources.

Nurture Community by Nature Sourcing

H Plant has collaborated with LG Household and HealthCare, one of Korea's leading companies in the cosmetics and household products industry.

The collaboration includes research and development, production, quality assurance and quality control of essential oils and marketing of herbal products available in the Himalayas.

"HIMALAYA HIUMHERB NARD SHAMPOO AND NARD TREATMENT"

In association with Breathe B international, hair care products based on Spikenard (Jatamansi) oil produced in Humla has been launched. Breathe B International, located in Daegu, South Korea, is a one stop corporation which operates brand management, local manufacturing, design & distribution, marketing, customer service and sales.

And now the company is one of the fastest growing beauty and fragrance companies in S. Korea. It has already operated 100 retail stores in S. Korea and is about to expand its business globally.

Benefits

With our perseverance, there are numerous direct and indirect benefits to the stakeholders. It benefits about 10,000 rural people of Humla and Mugu districts by empowering them to fight against poverty by creating employment opportunities and fair trade practices.

Essential Oil

Hiumherb essential oils are distilled in the foothills of the Himalaya original source itself. These essential oils are from the aromatic herbs of Himalayan forests and are of highest quality and purity. Hiumherb essential oils include wild crafted essential oils: Spikenard (Jatamansi) oil and Titepati (Mugwort) oil.

The wild plants are harvested from well regulated and managed forests by community people, distilled by local cooperatives and quality controlled and packed by H Plant for sales to domestic and international markets.

Product benefits

Aromatherapy, through the use of essential oils, the purest essence of plants, has been found to provide both psychological and physical benefits. Hiumherb essential oils are used for therapeutic purposes, relaxation or simply for their fragrance.

Orthodox Tea

"Heal the soul, Heal the world"

Organic certified by NASAA (National Association of Sustainable Agriculture, Australia) teabags.

New blends of spices with tea leaves provide flavoursome taste.

Cardamom black tea

Cinnamon black tea
